

Ohio Asian Longhorned Beetle (ALB) Cooperative Eradication Program MEDIA UPDATE

October 29, 2015

Media Inquires Call:

APHIS PIO—Rhonda Santos 508-852-8044

ODA PIO—Brett Gates 614-752-9817

KEY MESSAGES: Residents in the ALB regulated areas established within Clermont County cannot move firewood or wood debris outside of the regulated area and outside of East Fork State Park. Residents are also discouraged from moving firewood and wood debris inside the regulated area. For answers to questions about regulated materials and permits, or to report wood movement or suspected ALB infested trees, residents are asked to call the program office at 513-381-7180. Residents can also report suspected ALB infestations online at www.AsianLonghornedBeetle.com.

Clermont County

Tree removals are ongoing. Property owners are asked to communicate any concerns with the contractor in advance of tree removal work being conducted by calling 513-226-9138. Ground and tree-climbing survey crews continue to conduct delimiting surveys, inspecting all host trees throughout the regulated areas in Clermont County. Staff survey for the presence of ALB by examining individual host trees for signs of beetle damage. The following numbers pertain to the tree removals and surveys currently being conducted:

1,631,795	Number of tree surveys conducted as of 10/24/15 (since surveys began on 7/1/11)
17,402	Number of ALB infested trees confirmed as of 10/24/15 (since detection on 6/17/11)
16,229	Number of ALB infested trees removed as of 10/24/15 (since removals started on 11/14/11)
58,612	Number of ALB high risk host trees removed as of 10/24/15 (since removals started on 5/1/13)
36,130	Number of ALB high risk host tree treatments conducted since 2013
61	Square-miles under regulation; see "Regulated Area" map: http://agri.ohio.gov/topnews/asianbeetle/docs/ALB_ohio_quarantine_082112.pdf

The quarantine restricts the movement of hardwood logs, firewood, stumps, roots and branches out of the regulated area and also restricts the sale of nursery stock, green lumber, and logs of the following trees: maples, horse chestnut, buckeye, mimosa, birch, hackberry, ash, golden raintree, katsura, sycamore, poplar, willow, mountain ash, and elms. Program staff continue to monitor regulated areas, respond to service calls and conduct training sessions for compliance agreements.

UPCOMING EVENTS: The Ohio ALB program will no longer be scheduling the open office hours offered every two months. The ALB program office is always open to the public during business hours to answer questions and appointments are preferred. Residents are encouraged to contact the ALB program office at 513-381-7180 with any questions or to schedule an appointment. Information can also be obtained online through either www.aphis.usda.gov or www.agri.ohio.gov or www.asianlonghornedbeetle.com or sign up to receive the ALB eNewsletter through [the USDA's Stakeholder Registry](http://theUSDA'sStakeholderRegistry) or connect through social media at <https://www.facebook.com/asianlonghornbeetle> and <https://twitter.com/stopalb>.

BACKGROUND: The Asian longhorned beetle (*Anoplophora glabripennis*, ALB) is an invasive insect from Asia that came to the United States concealed in solid wood packing material; pallets, crates and dunnage, used to transport goods from overseas. ALB was first detected in the United States in 1996 in Brooklyn, NY. Ohio is the fifth state to detect the destructive ALB. Eradication has been declared in Illinois, New Jersey and parts of New York. Eradication operations continue within Ohio, Massachusetts and New York.

The Ohio ALB Cooperative Eradication Program is comprised of USDA APHIS, Ohio Department of Agriculture, Ohio Department of Natural Resources, Ohio State University Extension, USDA's Agricultural Research Service and Forest Service.
